Welcome to Global Visionary Pen Legacy (GVPL), Malaysia.

We nurture authors as well as co-authors for solo books and anthologies.

Empowering people and creating economic opportunity for all by connecting millions of buyers and sellers worldwide.

An organization will bring together authors from around the world to form the Global Visionary Pen Legacy, which will intuitively advance and evolve to improve self-development and community development.

What we really do?

First and foremost, the more transforming supportive team formation is initiated, the greater each individual's personal intention, objective, and goals, the greater new Vision, and Mission towards Fortune Living, Grand Elite Life Experience.

Beyond that, urban people read more than rural people; affluence is associated with reading; and young girls read

earlier than boys do and continue to read more in adulthood.
