WE ARE PASSIONATE ABOUT PROVIDING YOU WITH A WIDE NATURAL PRODUCTS

The adage "health is wealth" emphasizes the critical role of good health in our lives. In modern society, maintaining good health is a necessity. SK Gratia Enterprise is a notable initiative led by Mdm. Santhakumari, who discovered a valuable natural health product called Vitae Grains. This remarkable health product was first used by 27-years-old daughter, who suffered from asthma. Her daughter's condition prompted Mdm. Santhakumari to take steps towards finding a healing solution.

Mdm. Santhakumari consulted with a doctor for a solution for her daughter's illness. However, modern medicine proved disappointing as it caused an allergic reaction. The doctor recommended a natural diet for the daughter instead. To find a solution, Mdm. Santhakumari chose natural grains, such as wheat or other cultivated cereals used as food, as her daughter's main food. She was knowledgeable about the health benefits of such foods, and her daughter's health gradually improved. Her daughter's great progress at work drew the attention of colleagues who approached her for health tips, particularly her fellow teachers who required significant energy to perform their duties. This provided her with an opportunity to recommend Vitae Grains to her friends.

Mdm. Santhakumari's journey in producing this miraculous health product began with a 2kg composition to cater to her daughter's needs. Over time, it transformed into an entrepreneurial venture that is now well-known throughout Malaysia. The manufacturing company of Vitae Grains in Skudai, Johor is evidence of the product's growth and the significant impact it has had on many people's lives.
