Aliya and Sebi, from SMK Titiwangsa, Kuala Lumpur [Form 2] ~ Testimony

I realized education is really fun, math is easy, studying 2nd

languages such as English is very important and enjoyable activities upon completed VGENIUST workshop. Usually I score just passing marks for Science and Math. Within 25 days now, I have miracle results, I begin to manage my emotion much smoothly and started to score STEM subjects above 88%. Thank you VGENIUST team especially my mentor ELANggovan. Universiti Putra Malaysia, Doctor of Philosophy (Ph.D.) Field Of Study Teaching English as a Second or Foreign Language/ESL Language Instructor.

MR. SK (SUKA KAWAN) TAN, MALAYSIA ~ Testimony

Elan's thought and vision is very much aligned to what I am doing to my daughter QQ.

However, I have developed a personal KPI method namely "A P.E.R.F.E.C.T" and this is how I would

evaluate him:

Attitude: he is joyous, approachable and utmost he is humble to everyone he mingled with. Proactive: he always take the 1st step to greet people with positive greetings and share his vast knowledge without being asked at all. I like proactiveness to offer his 1st hand information to people that he met. Effective & Efficient: No doubt he is an expert to help people to achieve more with less. Results: To me he is a high achiever with high value and ultimately he delivers.

Focus: I know he always focus to draw people attention all the time to understand his messages.

Enthusiasm: Obviously without much saying he loves what he does to achieve his deliverables at his optimal anytime. Communicator: The most challenging part of the human development and yet I have seen he is great at communicating with good listening too. Take Charge: This is what I love about him with good intention to help people to achieve what they desire. Always taking charge to go beyond what clients wanted.

SK Tan is the Asia's Leading Brain-based Learning Expert and he operates Wonder Tree with extensive research and development of brain-based learning methods. His 1st Brain-based typing system "EasyType" won him an award at the ITEX 2005. He further developed "QBrain Method" - a whole-brain learning method of genius development designed to explore brain potential integrated with "Learning-to-Learn" and Learning-to-Think" at the fullest capacities. Subsequently, he integrated the Brain Enhancement & Synchronization Technology (BEST) that covers Fun Brain-compatible learning with E.A.S.Y series, health products, Super Brain Activator (ESP skill), QBrain+ game card and LazyMath which has been endorsed by Universiti Sains Malaysia, Penang together with EasyArt, too.
