Why Choose Us?

We welcome new patients at Viva Dental Clinic.

We aspire to always give the best support possible, no matter why you come to see us.

One of the greatest compliments we can get as a practice is to be recommended to the friends and family of existing patients, which is why we are proud that many of our new patients come through personal referrals.

Whether you're looking for a general dentist, need preventive or restorative dental work, are interested in improving your smile with cosmetic dentistry, or a mix of these options, we think we can help. For all your dental needs, here are a few reasons to choose Viva Dental Clinic:

Modern, high-quality equipment and techniques.

We only take advantage of the latest technology, materials, and techniques. Our technology includes an endodontic microscope specialist, dental laser, intra-oral cameras, needle-free anesthesia, and digital radiation.
