TESTIMONY

Excellent workshop conducted by Elan. Each sales staff improved sales from an average staff recruitment of 5 students to 25 students monthly. ROI on training sales staff improved 150% to 400% in recruiting. Their communication skills sharpened, they are able to accept Lincoln's University Sales Goal Setting. I have recommended to LUC to organize the T7SR Career Advancement and Entrepreneurship for our students for better CGPA and performance in the industry after they graduate.
Rino Razman Vun, Director of Sales, Lincoln University College

Mr. Elan conducted a training program for our management team and staff of the Malaysian Institute of Human Resource Management (MIHRM) on 30th Dec 2014. He presented on the topic, "Building Intrinsic Motivation for Peak Performance." The program motivated our staff to perform better and was very good and encouraging. There was marked improvement in the work performance of all our staff and it achieved our objectives of the program.
Mr. Leslie Lim, MIHRM

Exclusive session from Elan via The 7 Secrets Rhythm Hidden Secrets of Sales Psychology was power pack. Our staff vibrate higher altitude on Sales KPI targets. Awesome training. We would like to recommend to you and your corporate organization.

Training Manager, Al-Rajhi Bank Malaysia

When I was searching for corporate brain and psychology training workshops, I found yours to be exactly what I was looking for. After we attended your training on “Best HR Practice for SMEs”, most of the participant’s feedback on The 7 Secrets Rhythm was it’s the first kind to leverage human potential with a new concept.

Mr. Neelamehan, HRDF

In my opinion, this is the best workshop which is more than I expected. Traditional training may give all the facts and tell us what to do but T7SR intrinsic training exposes lots of secrets in OSH which can only get through this training and its remarkable impacts within a day. Great trainer Elan he is energetic, good multi-language speaking personnel and full of global case study experience to share the real industry domain.
